Om BISWAS

HELLO , my name is Om , a designer / illustrator / artist
based in SHILLONG , INDIA.

Since 8th grade, my passion for illustration, character design, and visual
storytelling has continued to grow. Over the years, this creative interest has
expanded into UI/UX design, graphic design, 3D, and product design.

Always eager to explore new directions, I enjoy experimenting with
different styles and mediums to express ideas in fresh, meaningful ways.

Apart from design, I am a district-level badminton player and an
active sports enthusiast. I'm also a Trinity College London-certified
guitarist, which has helped me build discipline, focus, and a sense of
balance that reflects in my creative work.

MY EXPERIENCE

1. Sports Council Head

- Designed posters and promotional materials for college sports and other events.
- Helped organize and manage sports tournaments and activities.
- Collaborated with teams to ensure smooth execution and maximum participation.

2. Conducted a workshop at a government school, sharing skills and
guiding students.

- 3. Worked as a Graphics Designer at Mentorsity 
- 4. Re-designed a website from ground up for PLAYSTAPLES 

INTERESTS

I'm passionate about both creativity and activity. I enjoy
sports like badminton, table tennis, football, and
basketball, which keep me energized and disciplined.

On the creative side, I love sketching, animating, gaming,
playing the guitar, and watching movies. I'm also an avid
traveler, always curious to explore new places, cultures,
and experiences.
